

## – Petition –

***To the Honourable the Legislative Assembly of the Province of British Columbia, in Legislature Assembled:***

***The petition of the undersigned, KamloopsA4C, of the city of Kamloops, BC, states that:***

***British Columbians oppose Bill 36, which would make sweeping changes to the governance of regulated health professions in British Columbia.***

- Bill 36 – 2022: Health Professions and Occupations Act Section 49 and 200 undermine Canadian law of the right to bodily autonomy and the right to medical privacy by attempting to legislate healthcare professionals into mandatory vaccination;
- Vaccination in Canada has always been optional and the right to “my body my choice” in any medical procedure is a widely accepted right;
- The right to bodily autonomy against forced medical procedure is protected under multiple laws – 1960 Canadian Bill of Rights, Canadian Charter of Rights and Freedoms, Criminal Code of Canada, Canadian Medical Law, BC Public Health Act, The Canadian Medical Association Medical Code of Ethics, International Conventions of which Canada is a signatory - The Nuremberg Code, The Helsinki Accords and The UNESCO Universal Declaration on Biometrics and Human Rights;
- Klaus Schwab – the author of "Covid-19: The Great Reset" and the head of the private foreign corporate organization called The World Economic Forum (WEF) depicted a scenario of a pandemic which destroyed government globally, including healthcare and called for power to be handed over to an unelected global governance termed “New World Order” under the UN to step in and solve the problem;
- The policies and decision-making of Health Minister Adrian Dix - so far - have not worked and have led to the rapid atrophy of BC’s health care system. These policies should have helped improve healthcare in British Columbia, but have instead contributed to the failure of the healthcare system in British Columbia while demoralizing healthcare professionals throughout the province;
- Current governance of regulated health professions in British Columbia includes profession-specific boards, including individuals whose merits and qualifications are based on the candidate's expertise and experience within their profession. If the Health Professions and Occupations Act is passed, these boards can be usurped by government-appointed members and be used and manipulated in such a way as to further the government’s foreign corporate agenda. Essentially, the BC government will take over the governance of all healthcare licensing and regulation;
- Private foreign corporate organizations under the UN, WHO, CDC, BCCDC have been facilitated by the BC government to push their agenda and these plans are offensive to British Columbia Constituents;
- Under the guise of public safety, Minister Dix is seeking to further erode autonomy and self-governance for each profession. Simply put, this is a power grab and continues the trend of government overreach exhibited by Minister Dix. His track record over the last two years has proven that public safety and improving patient care are not his principal goals;
- Bill 36 is obviously a power grab designed to centralize the healthcare industry under global governance;
- These foreign organizations like WHO, CDC, BCCDC are controlled by a foreign, unaccountable, unelected self proclaimed band of ‘experts’ this is extremely dangerous and offensive to British Columbia Constituents;
- BC Constituents want these private foreign corporate groups and their private agenda removed from BC politics;
- BC Constituents choose to instead to have an active voice in decisions in British Columbia by BC Constituents to make such important narratives and policy of any said Great Reset;

*Your petitioners respectfully request that the Honourable House to:*

- 1. Desist implementing the private foreign corporate UN, WEF, WHO, CDC, BCCDC agenda in BC, Canada;*
- 2. Immediately uphold Canadian Law to bodily autonomy of Constituents in BC from mandatory vaccination;*
- 3. Call upon **Minister of Health Adrian Dix** to follow Canadian Law and represent your Constituents instead of foreign corporate private interest;*

*British Columbians feel our government has been representing foreign entities like the UN, WEF, Rockefeller, etc and demand the interests of Constituents be followed instead.*

*Dated this \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_.*
